

“Connections”

In May, 2014, 130 Revelstoke Secondary School students from grades 8 through 12 created this mosaic mural. Teacher Lissa Cancilla and artist Jerry Whitehead asked the students to connect with a specific aspect of Revelstoke's landscape. The students took great pride and had a lot of fun 'connecting' with the important aspects of their environment and with each other. Mr. Whitehead created a grid from which each student painted a piece of the puzzle. It was an incredibly rewarding experience for all involved! Funding for the project came from the BC ArtStarts in Schools Program and Revelstoke Arts Council.

The mural will be installed at Revelstoke Secondary School in the Fall.
