We respectfully request that the City of Revelstoke, CSRD and the Province of BC work together with the citizens and stakeholders of Revelstoke to ensure that all values (recreation, quality of life, tourism, forestry etc.) and interests are considered and legally protected in the management of the Mt. Macpherson area. In the interim, we request that all logging activities affecting the Mt Macpherson recreation area are suspended until a workable, and publicly acceptable solution is found.

CITY	COUNTRY	COMMENT
Adelaide	Australia	Although I'm not a biker, I enjoy walking on forest trails. I spent a week last summer enjoying the tranquility of Mt Macpherson's forests, and I see no reason why they can't be managed as working forests without premature harvesting
Brisbane	Australia	recreational tourism is a huge part of this town and one that should be considered sustainable
Caloundra	Australia	I have visited this beautiful area and would like to see thorough investigation/consultation with the community.
Canberra	Australia	I use this area weekly and it is extremely important to me and the reason i live in Revelstoke. We cannot lose this area !
Canberra	Australia	My brother and his family live there, we have visited and it is one of the most beautiful areas of forest I be seen. - also why take away such a healthy lifestyle of skiing, bike riding, hiking wildlife watching!!!
Canberra	Australia	Destroying thousands of hours of hard trail work and a national icon, one so many us Aussies travel to Canada just to ride!
Canberra	Australia	im singing because I had the pleasure of living in Revelstoke British Columbia for 12 months this town has a safe spot in my heart as my second home and I have friends in that town that have become family to me! And I would like to be apart of this!
Canberra	Australia	I believe this space is important to be used for recreational access for tourism .
Abbotsford	Canada	I am familiar with the area and would hope to be able to return there and enjoy it again with my son one day. I also wish for such a beautiful recreational area to be available for all other outdoor enthusiasts for generations to come.
Abbotsford	Canada	I enjoy the Mt. Macpherson bike trails and would hate to see them ruined.
Aldergrove	Canada	On my last trip through Revelstoke I really enjoyed the trail system.
Banff	Canada	I like riding their in my days off some of the best trails around
Bragg Creek	Canada	Tourism always produces more value to an area than forestry per acre. You can either get a one time timber grab or spend the next 40 years receiving direct tourism income, increase in real estate value, health, wellness, trickle down wealth, tourism related jobs and happiness. Hopefully a politician with large enough eyes to see the big picture will handle this.
Bragg Creek	Canada	I'm a mountain bike living in west Bragg Creek and I share the concerns of forest loving people in revelstoke.
Brandon	Canada	recreational use is important to me
Brandon	Canada	I love revelstoke and love going there to ride bikes and snowboard.
Burnaby	Canada	Mountain bike tourism will help your community immensely.
Calgary	Canada	I frequently travel to Revelstoke to use the Mountain Bike trails in the Macpherson area.

CITY	COUNTRY	COMMENT
Calgary	Canada	I am a recreation user of all types that benefits from this area. The biggest draw of the area is the semi intact forest that is still left for us to enjoy. The worth of the timber is a fraction in comparison to the dollars being brought to town every summer from tourists also taking advantage of this recreation area. It attracts hikers, bikers, xc ski and even naturalists every summer from across the world and will continue to benefit Revelstoke and the growing tourism industry. Please let generations of people enjoy this small fraction of BC without unnecessary resource extraction.
Calgary	Canada	I plant trees, in Revelestoke. Last year I planted more than one cut block that had a mnt bike trails running adjacent or even through the cut block. I am signing this because I agree the logging plans could be better managed to incorporate land used for recreation.
Calgary	Canada	It's important to keep this exceptional forest. It's a magical place and the mountain biking is phenomenal. I love this place and I hope it will stay the same for my newborn to experience as it is when he will be older. Please stop the logging there and preserve this amazing area.
Calgary	Canada	I love mountain biking. I've ridden almost everywhere in western NA. I know that Mt. Macpherson trails offer one of the best riding experiences anywhere. The intact forest is an integral part of that experience. Without it, Revelstoke will not be the same riding destination it is. I've grown up in Idaho, BC, and Alberta, and I know logging is a part of the economy, but please do not go for the easy dollar here.
Calgary	Canada	I grew up in Revelstoke and spent time on the mountain. It would be a shame to see it logged like it was described here.
Calgary	Canada	I love that area and travel often from Calgary to stay in Revelstoke and ski/bike McPhereson. Let it be!
Calgary	Canada	i think many people will regret that they will have lost beautiful forest so lose to town in the coming years. So many benefit from them.
Calgary	Canada	Revelstoke trails draw riders from all over the west. To get rid of them would remove a great source of community building and tourism. The economic and public benefits of these trail are significant and to destroy them would be a mistake.
Calgary	Canada	logging that takes away from community recreation is wrong.
Calgary	Canada	I only just found out about these trails last summer, rode them once, and plan to spend at least three to four weekends this year driving from Calgary specifically to ride this trail network.
Calgary	Canada	i like to ride there! Don't destroy it!!
Calgary	Canada	great riding
Calgary	Canada	I love the recreational areas on Mt. Macpherson and want them to stay as old growth forests!

CITY	COUNTRY	COMMENT
Calgary	Canada	I love to ride trails in revl and drive out on a regular basis for both biking and skiing. Keep your rec areas in pristine shape.
Calgary	Canada	quality recreational land addsmore value to the community than a once in 60year clear cut. Get with it!!
Calgary	Canada	i travel to Revelstoke regularly for mountain biking among other out door activities - this area should be preserved :
Calgary	Canada	i'm signing because I love these trails and find these rec areas are becoming scarce
Calgary	Canada	because I like to bike and do other activities around revy.
Calgary	Canada	I want to screw with BC's economy, just like BC is screwing with Alberta's.
Calgary	Canada	I'm signing because Revelstoke trails are by far some of my favorites, and the trail community/people that are a part of it are super rad and it would be a shame to see such a valued recreation area be logged
Calgary	Canada	I enjoy mountain biking in the area and I agree that there is an alternative that should be discussed further.
Calgary	Canada	The trails in the McPherson area are the main reason I stop in Revelstoke a couple times per summer on my way to vancouver. If you guys get rid of these trails I won't stop in your awesome little town.
Calgary	Canada	The mountain bike trails at Macpherson make Revelstoke an annual summer destination. Without their appeal, Revelstoke would not be worth visiting from Calgary during the summer.
Calgary	Canada	There are lots of mountains to log and tourists and younger generations will move to Revy if their is year round lifestyle activities like skiing and biking.
Calgary	Canada	My favourite mountain bike trials are in Revelstoke. Even after riding the Frisby Ridge trail, I couldn't wait to top the day off with Flowdown! It would be devastating if anything happened to this trail network. The trails are so much fun to ride and keep me inspired to ride the trails closer to home so that I can improve my fitness and skills to conquer a day of riding in Revelstoke. There are just so many places to ride here.
Calgary	Canada	I like to spend time in Revelstoke mountain biking during the summer. With the destruction of valuable recreational space, I will have to look elsewhere.
Calgary	Canada	I use this area at least a dozen times a year. Its a gem in the area and it should be protected.
Calgary	Canada	I love Mt Macpherson trails and I don't want to see them impacted negatively by commercial logging.
Calgary	Canada	This area is an important part of Revelstoke tourism. I am from calgary and come to Revelstoke to ride here.

CITY	COUNTRY	COMMENT
Calgary	Canada	I come to Revelstoke and support the local economy because the natural and recreational amenities there.
Calgary	Canada	It seems that there's a very good window for multiple stakeholder balance here, with a reasonable and respectful request for collaboration. Please consider the invitation to engage in a constructive process on this issue.
Calgary	Canada	there needs to be some accessible natural playgrounds available to all, local or tourist. a great deal of work has already been done to build trails in this area.
Calgary	Canada	Macpherson Trails are huge part of the mountain bike community's trail network in Revelstoke. The Macpherson trails have developed and become a destination for riders all throughout British Columbia. Logging this area, will have an huge negative impact on the mountain bike community all through BC. Hopefully the logging industry can respect those builders who have spent hundreds hours building this amazing network of trails, and the hundreds of people who have got the opportunity to experience and share the enjoyment and passion these trails have created.
Calgary	Canada	I love Revelstoke
Calgary	Canada	I believe established outdoor recreational areas should be protected.
Calgary	Canada	Quality of life, as well as Eco-touristic viability of the area are at stake.
Calgary	Canada	I come from Calgary to Revelstoke regularly to recreate. Continued degredation of the area will make it less appealing to visit, forcing me and many others to spend our hard-earned money elsewhere.
Calgary	Canada	I have used and enjoyed these trails, they add a strong incentive to visit Revelstoke in the summer.
Calgary	Canada	Mt Macpherson is a world class mountain biking destination. It is a economical loss to the community of Revelstoke to allow logging within this trail network.
Calgary	Canada	I love revelstoke.
Calgary	Canada	I come all the way from Calgary to recreate in Mt McPherson
Calgary	Canada	I believe resource development needs to be conducted in a sustainable fashion and consider the other values of the landscape. The MacPherson Trails provide long-term ecological, recreational, social and economic value to the region and residents of Revelstoke in their current form which will be negatively affected by the short-term potential economic value of the timber if harvested. I travel from Alberta to ride these trails and support Revelstoke when I stay in its hotels, eat in its restaurants and purchase goods in its stores. There are other competing communities like Fernie that support their trails as they recognize the benefit the trails bring to the community. I hope the Revelstoke town council will fully consider the long-term value the MacPherson trails bring to the town and make the right decision.

CITY	COUNTRY	COMMENT
Calgary	Canada	keep more bike trails open!!!
Calgary	Canada	I ride in the revelstoke area whenever I can. They are WORLD CLASS trails ! The long term gains provided by riders visiting the area should out weigh the short term profits made by the logging industry.
Calgary	Canada	i love the trails and hope to retire in revy. Please don't make me change my mind!
Calgary	Canada	I want to ride these trails with their trees intact.
Calgary	Canada	This area is a fantastic recreation area that draws MANY Calgary based people in the summer for mountain biking. We stay, eat and drink and buy products in your town. If you wreck Mt Macpherson - we won't come and you would lose a beautiful area.
Calgary	Canada	preserving the ecosystem of the area is important, including the recreation trails.
Cambridge	Canada	My sister and her family live there and we love visiting the beautiful scenery as it is now
Camrose	Canada	I lived there and I love it
Canmore	Canada	I love this area, skiing xc and biking . Plenty of other trees out there eh?
Canmore	Canada	It would be reckless the damage such an excellent trail system. It's a big draw for people to visit from out of town.
Canmore	Canada	Mt Macpherson is one of the best Mountain bike facilities in Canada. Keep it for all users!
Canmore	Canada	Revelstoke is a valued destination place for our outdoor activities which include; Mt. Biking, skiing (both downhill and x-c) and camping. It would be a shame to lose the forested areas where many of the mountain bike and ski trails are.
Canmore	Canada	I went to Revelstoke for three days with the sole purpose of mountain biking McPherson and frisbee ridge, stayed at local hotels, ate at local restaurants and am likely to bring family and friends at least yearly.
Canmore	Canada	i love visiting town, and using these trails.
Canmore	Canada	These trails are very important for the area. As a visitor to the area I can speak to how much tourism these trails bring revy.
Canmore	Canada	I have enjoyed the trail network and forrest while mountain biking last fall, and would love to be able to return each summer.
Canmore	Canada	Love riding the trails
Canmore	Canada	I use these trails multiple times every year.
Canmore	Canada	it a wonderful trail system and that would be lost with clear cutting resulting in my family not stopping in Reve each summer of a few days on the way to the Okanagan

CITY	COUNTRY	COMMENT
Chilliwack	Canada	Because I really enjoyed riding and skiing there last year and would like to return every year to do the same. My family stayed in a hotel, ate at the restaurants and we think mt Mac is so awesome! Please don't log. Thanks
Chilliwack	Canada	I specifically went there to mountain bike last summer and spent 5 glorious days. McPherson trails were terrific.
Clearwater	Canada	Mountain biking is universal for all ages and sizes here!
Cochrane	Canada	I'm signing because in couple years we planning moving there to enjoy all those things .
Cochrane	Canada	I have traveled to Revie 4 times to mtb and Mt Macpherson is always a big part of it. It is a great resource for tourists and locals alike.
Cochrane	Canada	Because my family, friends and colleagues use these area all year round. They are a precious resource that must be saved from clear cut. Will all I have to share my kid is a dusty old hill?
Coldstream	Canada	Despite being in Vernon, I am a regular uiser of the trails at McPherson. It is a fantastic facility that draws people to Revelstoke from all over the BC Interior
Coldstream	Canada	I ride those trsils a lot and want to see this beautiful area protected
Coldstream	Canada	I am signing because I enjoy this recreational area and I don't want to see another area lost to logging! Save our trails!
Coleman	Canada	Mountain biking is more important to me than logging!
Columbia-Shuswap	Canada	The short term gain for logging is not as vast as the long term gain for tourism and our beautiful trails
Courtright	Canada	I believe in this
Dalhousie	Canada	Love my trees and my forests!
Dartmouth	Canada	Revelstoke is one of the most beautiful places in the world. Please manage the harvesting of trees to respect this. It will take years to replace.
Delta	Canada	My friends live in Revy and we love reuniting and mtb'ing a few times a year
Duncan	Canada	Because I value the recreation and healthy enjoyment of the outdoors on Mt. Macpherson in Revelstoke.
East Oulee	Canada	They should log just q bit farther out of town

CITY	COUNTRY	COMMENT
Edmonton	Canada	My macpherson and the recreational opportunities so close to revy are what keep me coming back. I'm sure the economic spin off of clearing this area would be seen in town as local business would take a huge hit from a loss of tourism. Also, I understand first hand the effort involved to build and maintain a trail network like this. I know that if this area is closed without proper considerations that your local trail builders and supporters will be hesitant to start again at an alternative location for fear of all the work being destroyed in the future again.
Edmonton	Canada	This is important!
Edmonton	Canada	I have been riding in Revelstoke for a few years now and always enjoy Mt Macpherson's extensive mountain bike trail network. It would be a real shame if this gem was compromised in any way. Would have to change my travel route out to Vancouver if I couldn't get a quick ride in in Revy.
Edmonton	Canada	more sustainable use
Edmonton	Canada	Best Mtb in Canada.
Edmonton	Canada	The mouton should be saved.
Edmonton	Canada	I love our beautiful forests standing upright and green!
Fernie	Canada	I am signing because I believe the social rights of individuals outweigh right for a company to profit. Stand for the people!
Fernie	Canada	Keep mt McPherson beautiful and forested! This beloved area deserved to be protected
Fernie	Canada	I spent 4 years living in Revelstoke in my early 20 's and, I spent a lot of time enjoying mountain biking, hiking and cross country skiing in the Mt. Macpherson area. Why cut down a huge selling feature to Revelstoke? This doesn't make any sense!
Fernie	Canada	I am afraid that logging if continued in certain areas will negatively impact the ecosystem by all how share it, mountain bikers, hikers, plants and animals alike!
Garibaldi Highlands	Canada	recreation over the long term can be promoted to produce dollars close to that of logging a forest - thinking long term for sustainable communities is vital!
Garibaldi Highlands	Canada	I care
Garson	Canada	find a different spot
Golden	Canada	I value the current recreational opportunities found at McPherson!!!
Golden	Canada	I'm signing because when I visit Revelstoke, one of the main reasons is to bike the McPherson trails. No McPherson trails, no more visiting.
Golden	Canada	The MacPherson trails are a main reason my partner and I, along with many of our friends, visit Revelstoke frequently in the summer. It would be such a shame to loose such a beautiful old growth forest, so diverse to what we experience in Golden.

CITY	COUNTRY	COMMENT
Golden	Canada	Tourism creates more employment, helps the economy more and is sustainable long term. Resource extraction is not.
Golden	Canada	I am signing because the Macpherson mtn bike trail network is one of my favorites!!!
Golden	Canada	I am signing because the red neck mentality is short sighted. Tourism bring in so much more money that forestry will even in a short time period.
Golden	Canada	If they log it I will not come to Revelstoke to ride there, I will stay in Golden where I can ride in the trees.
Golden	Canada	Trees are important part of my mountain biking experience at McPherson
Golden	Canada	There are other places to log. Keep the massive recreational assets (close to town) available for an emerging mountain recreational community. If its logged it will have a huge long term cost and limit the potential of revelstoke. Perhaps I should say log it, as it would be good for us in Golden when we get all your tourists.
Golden	Canada	I love the Mt. Macpherson trails - they are a treasure not only for Revelstoke but for all other surrounding communities. I live in Golden and when I come biking in Revie, I always end up buying lunch, dinner, and often staying in a hotel. These tourism dollars are SUSTAINABLE.. Cutting down the forests isn't.
Grand Valley	Canada	Revelstoke is home to a developing mountain bike tourism industry, and years of hard work have gone into developing the trail network. Mount Macpherson holds the towns most notorious trails, and to log the area would be a devastating loss for the local economy.
Guelph	Canada	this area is my piece, my serenity, it alters my state of mind with it's magnificent geography and beauty. Please do not alter
Guelph	Canada	The MacPherson trails are an important attraction in Revelstoke.
Haliwood	Canada	because as a resident of Revelstoke I would prefer to promote recreation tourism revenue over logging
Harvie Heights	Canada	I'm signing because I feel recreation and business can get along but it needs to be discussed. Please let us talk.
Hinton	Canada	Having recreational areas where activities such as mountain biking are important and are not easily replaced.
Invermere Bc	Canada	I love riding there
Janetville	Canada	Biking is important to the community and summer tourist industry
Jasper	Canada	This is an amazing area for recreation and forest appreciation. Please protect this mountain biking trail area.

CITY	COUNTRY	COMMENT
Jasper	Canada	Too much public grant funding and time have gone into the trail infrastructure here to have this ripped out. Due to the recent decline in Oil Prices, this area is key in Summer Tourism to Revelstoke. Without it there could be a drop in Tourism.
Jasper	Canada	I believe in protecting beautiful places.
Jasper	Canada	I love revelstoke, and the activities of mountain biking, trail running and skate skiing, which are becoming the revelstoke economy.
Jasper	Canada	I'm signing because i grew up in the Big Eddy in Revelstoke and i have good memories of cross country skiing on mt. macpherson. one of my favourite childhood pictures is taken up there.
Jasper	Canada	Money always seems to trump common sense...
Jasper	Canada	I've mtn biked these trails and are exceptional and well maintained.
Jasper	Canada	i love the single track biking in Revelstoke!!!
Jasper	Canada	we need to preserve our trails- they give us so much!!!
Jasper	Canada	it would be terrible to to destroy these forest trails and the surrounding area
Jasper	Canada	My family live in Revelstoke and enjoy the outdoors including the areas to be affected by logging.
Jasper	Canada	I love mountain biking in this area!
Kaleden	Canada	every year a party of 20 to 30 people from Kelowna come and camp and bike in Revelstoke. McPherson is our main attraction. We also stop to ride when passing through. We spend money for food, repairs, etc Without McP we will not come again.
Kaleden	Canada	This area is in deed a world class Mt. biking area. I am from the Okanagan Valley and visit this area at least once a year, just to bike. On every occasion we have met bikers from other areas of B.C. and other Western provinces. All of us shop, eat, camp or stay in Revelstoke, helping the income of your local bussiness. Please consider these points when making your decision about allowing logging in the Mt. MacPherson recreational area. A truly beautiful area and worth saving for the ecological, recreational and economic benefits of Revelstoke as a city and not just the economic benefit on one company.
Kamloops	Canada	I think this is a valuable trail network and this community has all sorts of problems with logging impacting it's trail network.. Enough is enough there is plenty of forest to log elsewhere
Kamloops	Canada	I love to ride and ski in that area.
Kamloops	Canada	Mt. Macpherson is one of our favourite trail systems. We travel from out of town every year to ride there. We spend tourism dollars in hotels, restaurants, pubs and local retail stores.
Kamloops	Canada	Recreational areas are extremely important and need to be protected for long term enjoyment and tourist revenue rather than short term big business gains.

CITY	COUNTRY	COMMENT
Kamloops	Canada	I am a recreational user and have hiked, rode my bike in this area years ago for an adventure race and was struck by the beauty of the area. Was amazed that such an area existed outside the town of Revelstoke.
Kamloops	Canada	I love the atmosphere in Mt Macpherson and the trees help to attract visitors to enjoy this amazing area. I also have a running event on those trails that attracts 300+ people from all over BC and Alberta to experience Revelstoke!! Let's help keep the trails open and usable!
Kamloops	Canada	I believe that the interests of the public must be put ahead of the commercial logging company. A few hundred acres of timber is not vital to the logging industry
Kamloops	Canada	This is a park and recreation site that is easily accessible by Revelstoke inhabitants and visitors to the area alike, providing them to experience some world class views and trails.
Kamloops	Canada	While I don't disagree with logging; I do disagree with the value of an area being seen only from the perspective of money. The interests of all parties must be considered.
Kamloops	Canada	I like nature and riding my bike
Kamloops	Canada	I love those trails
Kamloops	Canada	I love those trails
Kamloops	Canada	Trails need protection!
Kamloops	Canada	Trails need protection!
Kamloops	Canada	I am passionate about biking and the outdoors. Revelstoke offers such amazing and unique trail networks in BC and it would be devastating to see them taken away. We visit at least a few times a year and spend money on accommodation, food, drinks and shopping in the city of Revelstoke. Please please find somewhere else to log!!
Kamloops	Canada	This is an excellent natural asset as is.
Kamloops	Canada	I'm signing because I love mountain biking and people spend thousands of hours building those trails. I'm sure that somewhere farther out of town can be logged just as easy.
Kamloops	Canada	I travel to revy often in the mtn season and use these trails
Kamloops	Canada	I visit this area frequently. Recreation area for biking, hiking etc it being obliterated way to quickly.
Kamloops	Canada	I love the Revelstoke trail system. It is a gem in BC and draws recreationalists from all over. Trails can be revitalized after a cut, but are never the same.
Kamloops	Canada	forests must be protected...far too many forests are being destroyed...
Kamloops	Canada	This is a fantastic network of trails that draws us into Revelstoke yearly. While there we spend our money supporting local restaurants, hotels, and local retailers adding to Revelstoke 's tourism economy. Please reconsider the options available before logging this mountain biking destination.

CITY	COUNTRY	COMMENT
Kelowna	Canada	Macpherson is sick!
Kelowna	Canada	we need more outdoor activity spots. This is a gem.
Kelowna	Canada	I'm an avid mountain biker and love to experience new areas like this.
Kelowna	Canada	I support this.
Kelowna	Canada	We need to preserve natural recreation areas like this. The corporate engine has to be slowed down and gain more knowledge of the land.
Kelowna	Canada	I travel to Revelstoke for mnt biking xc skiing and ski touring, if the trails are destroyed or the natural setting decimated, I would probably travel else were.
Kelowna	Canada	I often travel from Kelowna to visit and experience the Mt Macpherson recreation area. If it's logged, the Revelstoke area will be losing tourists such as myself.
Kelowna	Canada	I ride in Revy at the Macpherson Trails at least twice each summer. Usually with a group of 8 to 10 people. We eat and stay in Revelstoke and spend money in the shops. Please keep this recreational viable and beautiful.
Kelowna	Canada	Tree farming can be done on a more micro basis than a blanket area.
Kelowna	Canada	These are beautiful trails and attract a lot of visitors to the area. A solution should be found that allows logging, riding, skiing and tourism to co-exist.
Kelowna	Canada	I'm signing because I love to ride the Macpherson trails and that's what brings my sustainable tourism dollars to Revelstoke!
Kelowna	Canada	I use and enjoy this area all year round, hiking, biking and skiing. I think it's a shame that an area that sees so much recreation use be used for anything but that.
Kelowna	Canada	I use and enjoy the McPherson Trails area.
Kelowna	Canada	This is some of the most beautiful mountain bike trails I have ever been on. We take holidays based around good mountain bike areas and mount McPherson is at least twice a year trip for us. The technical riding, the beauty of the old-growth forest is amazing. It's also accessible for my children to ride which is quite rare. Annually 10 to 15 of our friends bring their family and camp at blanket Creek provincial Park just so we can be near the mount McPherson trails. While we are in town we help the economy of revelstoke by having dinners out and and shopping in your town. Please please please protect this area it truly is a gem unlike any other place in the interior. This land is land owned by the people of British Columbia not everything has to be for profit some things need to be left to be enjoyed by the people who actually own it and that is the citizens of British Columbia.
Kelowna	Canada	This amazing old growth forest with simply amazing an amazing trail network needs to be protected.

CITY	COUNTRY	COMMENT
Kelowna	Canada	I come to Revelstoke each summer to ride my bike with my family
Kelowna	Canada	I enjoy mountain biking!
Kelowna	Canada	I love CX biking and skiing and travel to Revelstoke and spend money in the local community to do this
Kelowna	Canada	McPherson has some of my favourite bike trails!
Kelowna	Canada	I bike these trails frequently, and would a publicly acceptable solution.
Kelowna	Canada	Save our favorite trails!!!
Kelowna	Canada	Save our favorite trails!!!
Kelowna	Canada	I make 3 to 4 trips a year to ride these trails. I stay in hotels and eat at restaurants. The forest and its trails are much more valuable than the trees that could be logged there.
Keswick	Canada	I'm signing because I have friends and family that enjoy the mountain, and I believe in finding sustainable alternatives benefiting the economy and lifestyle of those affected by this circumstance.
Kimberley	Canada	<p>Whenever I am visiting or even passing through Revelstoke in snow-free months I make sure to take advantage of the excellent mountain bike trail network at Mt. Macpherson. The major attractions are the quality of the trail construction and the mature, mossy forest the trails pass through. Riding in regenerating cut blocks just does not compare, even if the trails are well built. The natural setting is as important as the trails.</p> <p>The intact mature forest needs to be recognized as a resource that will likely provide more long term economic value to the community than harvesting the trees every 80+ years. There are also many less tangible, but still highly valuable benefits to preserving the forest that are not purely economic. They promote nature appreciation, healthy lifestyles, community well being etc.</p> <p>I am not opposed to the forest industry. I actually derive a significant portion of my annual income from it. But a world-class multi-use recreation area that is on the outskirts of town is not the place for it. There are millions of hectares of productive working forest in BC, surely this small area can be preserved for the residents and visitors that so dearly love the area the way it is?</p>
Kimberley	Canada	I have been to these trails and loved them. When in town I spent money at many local businesses. I think they are world class and was planning to return with my wife as well as other friends to spend more money in this neighbouring community.
Kingston	Canada	It's important to me!
Knutsford	Canada	That area has tremendous recreational value that should be considered.

CITY	COUNTRY	COMMENT
Lake Country	Canada	Can't we log other places instead of the heart of a recreational area that keeps us coming to Revelstoke on a more than monthly visit?
Lake Country	Canada	I live to mtb there. It'sy favorite place to travel to which I do at least 6 times a year
Lake Country	Canada	i love moutain biking and hate trail being destroyed
Lake Louise	Canada	I recreate in Revelstoke. One of the big draws is the McPherson trail system. Not only am I playing, I'm staying at a motel, going out for meals and beers, and sometimes buying gear and shoes and other items from your local shops. Can there not be a balance between tourism and forestry? I use wood too but this is such a small area in their tenure and one that benefits the community and beyond. Is logging this multi-use area really that vital the success of the forestry industry?
Lethbridge	Canada	There is lots of forest and not a lot of developed trails in Revelstoke. In a community that is just getting a good base of recreation like the Macpherson, Boulder and Frisby areas, it would be a waste to ruin them now. Not to mention a reckless spending of grant money that was spent to build them.
Linden	Canada	We are losing our future
Longueuil	Canada	I have been skiing many times at the Revelstoke Nordic Ski Club in December and January. It's a tremendous place for cross country skiing
Malakwa	Canada	I have already seen a trail favorite of mine get mowed down, riding through the trees is half the reason I owned a bike.
Malakwa	Canada	i want our natural environments protected for future generations
Managua	Canada	There are many options to logging potential in the Revelstoke area. Using more progressive techniques capitalizing on GIS, and sustainable forest planning tools would illuminate these options. Let us be hailed by our children for saving the remaining resources that we have left, rather than being villainized for usurping the last remnants.
Maple Ridge, Bc	Canada	I travel to this area for MTB and would like to find a good solution to maintain the trails. I would like more Logging/Rec agreements in place also.
Meadow Lake	Canada	i bike, climb and ski on Macpherson and Boulder mtns, and have lost track of the number of visiting friends and relatives I have brought out to enjoy the trails. There must be a way to preserve this exquisite community resource.
Mississauga	Canada	We need to save our world now!
Mississauga	Canada	I would like all generations to have the opportunity to recreate in the local forest
Mississauga	Canada	I would like to have the existing trails preserved in their natural form. Is not possible to log in areas where trails are not affected?
Montreal	Canada	I use this area for Mountain Biking and Hiking.

CITY	COUNTRY	COMMENT
Montreal	Canada	I visit BC regularly to vacation because of it's pristine wilderness. I think it's foolish to destroy such a valuable asset and resource.
Mountain	Canada	I'm signing this petition because I believe in the protection of natural resources and that the value of protecting the recreational areas far exceeds the value of cutting down the forest in those areas.
Nakusp	Canada	I travel from Nakusp to ride the Mt McPherson area. Best trails around! It's best to leave it as it is. No Logging!
Nakusp	Canada	This space is reason for me to visit and enjoy Revelstoke, it is one of the hearts of the area's outdoor community.
Nakusp	Canada	I'm signing this petition because I use these wonderful trails for mtn. biking and cross country skiing. I have spent many enjoyable days exploring the trails with my family. It just wouldn't be the same if logging happened so close to here.
Nanaimo	Canada	I visit Revelstoke for the skiing in the winter and the biking in the spring/fall/summer. It would be such a shame to see this gem disappear.
Nanaimo	Canada	As a tourist, I am less likely to visit Revelstoke as the trails are lost.
Nelson	Canada	This incredible area needs to be conserved for the future.
Nelson	Canada	I think EVERYONE should be considered when an "investment" is made. Investment should not mean \$\$\$ but should also take into account the other aspects of what you are putting into and getting out of a situation. This one to me seems like a no brainer... unless of course you are the few who stand to put money in the bank. Time to think larger.
Nelson	Canada	Think its only fair to make logging sustainable and accommodating to existing infrastructure in the woods it impacts. I come to revelstoke every year, sometimes multiple visits, to ride those trails, and means I'm spending money at restaurants, bars, gas stations, grocery stores, Flowt bike shop etc etc. Why would I come to the area if more trails are getting ruined by logging? I get it...we need logging, just think it can be done in a way that doesn't wreck the trails and rec areas
New Denver	Canada	Recreation is a forest product too and should be given equal consideration with resource extraction.
New Denver	Canada	I love the area and use it regularly for biking, running and skiing.
New Waterford	Canada	I love the forest,so beautiful and magical.I get a natural high in there, not to mention we need forests to sustain our eco system,not to mention we get a third of the Earth,s oxygen comes from the forests!
New Westminster	Canada	land is becoming so precious and we need to preserve natures beauty
New Westminster	Canada	trail networks boost economies. Look at how Squamish's economy benefits from trail tourism
North Sannich	Canada	I enjoy Mt. Macpherson for recreating.
North Vancouver	Canada	I enjoy those trails every summer when I come to visit friends and families

CITY	COUNTRY	COMMENT
North Vancouver	Canada	I use the trails
North Vancouver	Canada	I rode Macpherson before they logged around the trails and I was really disappointed that this was allowed to happen. Not only does it take away from the experience of riding in the woods, it also changes the character of the trail, exposes it to more elements thus requiring more maintenance. This is so short sighted. At least leave a buffer around the trails. They bring people to Revelstoke.
North Vancouver	Canada	I like bikes and trees more than I like most people...
North Vancouver	Canada	These trails are a huge part of tourism, of locals and non locals living healthy lives, of the local economy and much more.
North Vancouver	Canada	we need the beauty of Macpherson as it is more than we need the lumber
North Vancouver	Canada	i have lived in revelstoke and love visiting - these trails are a big reason that I and many others bring our travel and tourism time and dollars to revelstoke. The mountain biking industry supports a lot of local businesses - destroying the trails doesn't just affect the users of the trails, it affects those who benefit from tourism in revelstoke
North Vancouver	Canada	I am signing as I spent and continue to spend quality recreational time in this area and am concerned for the residents of revelstoke, friends and family that this may effect.
North Vancouver	Canada	I ride, and care about land use issues. Recreation over deforestation!
North Vancouver	Canada	I value the recreational opportunity that Mt. Macpherson provides. I've ridden there several times and plan to return in the future.
North Vancouver	Canada	BIKES
North Vancouver	Canada	Mountain Biking is the only i go there
Oakville	Canada	To our economic benefit, science and nature prove that the trees will exponentially yield much more wood and oxygen the longer we leave them where they stand. Selective logging is a more sustainable and scientifically sound option. Slow down.
Osoyoos	Canada	The excessive forest cutting increases erosion, wind changes and snow pack. It is also unsightly. More importantly, no one has discussed the overall plan with the Owners of Apex Resort.
Ottawa	Canada	It's important to people who are important to me!
Ottawa	Canada	The B.C. wilderness is precious to me and to all Canadians.
Ottawa	Canada	This area has significant meaning to those who use it for what it is. A piece of heaven. It is part of what sets Revelstoke apart. This last couple of decades especially there had been a massive boost in the economy, and lifestyle. I have seen too many areas such as this disappear. Something you can never get back.
Ottawa	Canada	i live in the area
Panorama	Canada	I'm signing in because those are world class trails

CITY	COUNTRY	COMMENT
Parksville	Canada	Smaller communities need sustainable resources that keep their quality of life. Too much of our beautiful province is being logged in areas which affect parks and recreation areas.
Parnell	Canada	I'm signing because our trail network of both cross country and down hill biking trails (not to mention the amount of other recreational activities that take place on the trails) should be protected and built upon. The city should be looking at ways to keep Revelstoke an outdoor meca that attracts visitors of all disciplines for decades to come. Setting aside the other obvious benefits (health and otherwise) of having this magnificent trail system close to town, the amount of revenue that can be collected through biking tourism in the long run is way more than the city makes on lumber profits. It's a simple decision.
Pemberton	Canada	I am a long time forestry worker and believe the forestry has an important place in the province. But I also believe that we continue to under value the non direct economic benefits our forests have on our communities. this value is what draws a work force to a town like Revelstoke. many small business owners move to small town for the quality of life they offer, proximity to forest based recreation being part of that. if we continue to undermine those benefits we undermine the very thing which attract a vibrant and productive segment of the work force to small towns.
Penticton	Canada	Because top-quality recreation infrastructure such as this is more important to society than a few million board feet of lumber - that once it's gone, will be gone for countless decades...
Penticton	Canada	We need to protect ares like this one.
Penticton	Canada	I was in Revelstoke this past summer riding frisby ridge and me and some friends plan on coming to ride the mcpherson trails this summer.
Penticton	Canada	We're having an issue with "unplanned" logging at Apex Mtn Resort.
Penticton	Canada	I agree that the Mt. McPherson recreation area should be protected. This area of of greater value to the public for recreation than it's timber.
Penticton	Canada	love skiing and biking there and want to see it protected
Penticton	Canada	Our family camps in Revelstoke and we love the mountain biking in the area! Logging an area that keeps your community active in the outdoors seems wrong. Thanks.
Penticton	Canada	The same thing is happening at Apex mountain resort
Penticton	Canada	The same thing is happening at Apex mountain resort
Penticton	Canada	I love riding Revelstoke and I love riding in general
Penticton	Canada	I may be moving to revy and enjoy mountain biking!
Penticton	Canada	The same situation is unfolding in the South Okanagan at Apex Recreation Area west of Penticton

CITY	COUNTRY	COMMENT
Penticton	Canada	we are fighting the same issue up here at Apex Ski Resort and Nickel Plate Nordic Centre and are doing the same grassroots movement to stop it. Your petition and wording parallels our challenge and we may also get a petition going. We are trying to get a government policy change on how licences are issued and monitored and not stop logging but to keep it out of our recreational corridor and secondarily stop the clearcutting as the logging practice of choice,
Peterborough	Canada	Mt McPherson is one of the few areas close enough to town that one does not need a car to be able to enjoy it. Easily accessible recreational areas are not replaceable!
Port Coquitlam	Canada	i am always for saving trees and our environment
Prague	Canada	I love that place, please don't ruin it!
Prescott	Canada	I am often visit Revelstoke in the summer and winter and love taking advantage of the outdoor activities in the area.
Prince George	Canada	recreation users have rights to land as well.
Quebec City	Canada	We need to protect our forest and recreation area for future generation, logging can be done further away.
Quebec City	Canada	I like biking.
Red Deer	Canada	I agree with the cause, and how important it is.
Red Deer	Canada	Stop cutting down the trees! More \$ to be made with the trails and rec area than in the timber that's there.
Revelstoke	Canada	I think logging in these high value recreational areas is not appropriate
Revelstoke	Canada	I want to preserve the local mountain bike trails
Revelstoke	Canada	Logging in the Mount Macpherson area negatively impacts recreational and economic opportunities in the Revelstoke area.
Revelstoke	Canada	I love riding my bike through the forest at McPherson and I don't want to ride my bike through another cut block.
Revelstoke	Canada	I love Mount McP. Give the recreational aspects value and stop logging!
Revelstoke	Canada	I want to help preserve the trail network for my kids.
Revelstoke	Canada	we need to protect these trails!
Revelstoke	Canada	The bike trails add a great amount of vitality to local lives as well as tourists visiting the area. I would like my son Thoren to be able to ride them in his lifetime too.

CITY	COUNTRY	COMMENT
Revelstoke	Canada	I'm signing because I use the Mount Macpherson trails to bike, nordic ski, run and walk several times a week. These trails create the possibility for both locals and tourists to explore the unique and lush nature that surrounds the Revelstoke area. I learned to ski and bike on these trails. I have been walking and running them with my family for many years. I love these trails! They are one of my favourite aspects of my home town. It would be a great loss to the tourism of the town and to the locals if these trails were to be logged. I feel the enjoyment recreationalists experience on these trails outweighs the economical benefits produced from logging the area. I hope that the logging company can see this.
Revelstoke	Canada	I would like to see logging in the high use recreation area suspended.
Revelstoke	Canada	i love to cross country ski as well as the school district uses my McPherson as part of their physical activity program
Revelstoke	Canada	I prefer to ride bikes in the trees and I really like to ride mountain bikes.
Revelstoke	Canada	These trails and this area should be left to biking and tourism.
Revelstoke	Canada	I have lived in Revelstoke 25 years and have enjoyed the cross country trails on Mt, McPherson as have my 3 children who grew up here. Two have moved back after university and travel to raise families here for the recreation it has to offer.
Revelstoke	Canada	Because I enjoy biking in the beautiful trees on mt. MacPherson
Revelstoke	Canada	i love the trails that I bike on and ski on. It would really ruin so much if they logged the area!
Revelstoke	Canada	I care about our trail network, the socio/economic benefits and well being it brings to thousands of people. I want to see that maintained, and for the parties who will ultimately make the decisions to realize the true value of what is at stake should harvesting in the begbie bench/McPherson area, and other recreationally developed areas around Revelstoke, continue. Please consider the dynamics of the REAL situation. Thank you.
Revelstoke	Canada	I love biking and I especially love biking in beautiful forests. Cut blocks are ugly and not fun to bike in.
Revelstoke	Canada	I believe the long term benefit of keeping these valuable resources far outweighs any short term revenues from logging them.
Revelstoke	Canada	i believe there has to be limits with logging in high use designated recreational areas. It is far too shortsighted to let this happen when so much time and money has been invested in making Revelstoke a tourist destination.
Revelstoke	Canada	The ability to run on soft trails through standing forests in close proximity to town is one of the main reasons I moved here and go to considerable lengths to stay here!

CITY	COUNTRY	COMMENT
Revelstoke	Canada	I believe the value of our beautiful intact forests close to town bring more enjoyment, fulfilment and economic value to our community. Short term, low value gains are not sustainable into our future.
Revelstoke	Canada	I grew up in Revelstoke - My Hometown has always been unique for its surrounding nature and forests used for recreational purposes. I would hate to see that all disappear
Revelstoke	Canada	Mt Macpherson and its surroundings is such a beautiful area and it should remain as it is. It would be a shame and a big loss for Revelstoke and its people to not anymore be able to enjoy the amazing forest. Amazing Mountainbiking that people come from far away to enjoy will be totally ruined without the magic trees around the trails. Please leave Mt Macpherson for the people of Revelstoke to enjoy, today and for many years to come.
Revelstoke	Canada	The quality of the mount macpherson trails (and others)are one of many reasons I choose to live (and soon invest) in Revelstoke BC
Revelstoke	Canada	I enjoy the trails summer and winter, my dog does too!
Revelstoke	Canada	I am certainly not anti-logging but logging in areas were trails have been built seems like a bad use of resources. More and more people are coming for the biking, lets keep them coming and log in other locations.
Revelstoke	Canada	For the same reason that clear cutting the remaining trees on the town owned golf course would damage and degrade the human activity. Why would a foreign multinational with it's headquarters in Lichenstein care about first getting a social license to do permanent damage. A plantation is not a forest and the biodiversity of a natural forest is impossible to duplicate
Revelstoke	Canada	These trails are worth more to tourism then the tree's are to the logging industry. I use them regularly.
Revelstoke	Canada	i think these trails are very valuable to Revelstoke and they should be saved!
Revelstoke	Canada	I dislike the visual quality of the cut blocks around the townsite
Revelstoke	Canada	I want to see this area kept for activity for my children!!
Revelstoke	Canada	I live in Revelstoke and Mt Macpherson is one of the prime recreational areas for Mtn biking, nordic skiing and ski touring. It would be a shame for it to be destroyed.

CITY	COUNTRY	COMMENT
Revelstoke	Canada	I'm tired of the government putting logging over the people's wishes we live here the people logging this area don't even live in this part of the country , who knows where they live. I've been in this Revekstoke area all my life 45 years , my father , grand father and great grand father lived here and they were loggers at one time or another. Do I have nothing against logging however this is to close to home . We have as locals used this area for family outings since I can remember. For all types of different things picking Berries , mushrooms , cross country skiing , hiking , hunting, and though I don't mountain bike it's a big thing there. So for once government officials need to back us enough is enough , or locals will do it!!
Revelstoke	Canada	I like to bike there
Revelstoke	Canada	I believe strongly that the overall financial benefit of the trails on Mt. McPherson is much greater for the community than that of the potential logging harvest.
Revelstoke	Canada	Biking is awesome. Biking in trees and moss is more awesome. Biking in cut blocks.....not nearly as awesome and definitely does not attract people from far away places.
Revelstoke	Canada	I do not think that current logging practices at MacPherson are in Revelstoke's best interest.
Revelstoke	Canada	I believe in maintaining beautiful recreational settings for all people to enjoy - locals and tourists alike - save the logging for further back in the bush!
Revelstoke	Canada	The trail systems in this area are a huge tourism draw in both Summer and Winter, as well as one of the main reasons that a lot of residents live here. While we have to realize that there is a need to harvest natural resources to sustain the economy, I feel that we have to weigh the cost to both local moral and tourism if we eventually clear cut the areas around all of the recreation trails that we as a town have built, especially within line of sight of the town. This feels akin to logging the nordic center trails in Canmore. Macpherson, for all intents and purposes is Revelstoke's nordic center, and needs protection as such.
Revelstoke	Canada	This is one area that needs to be protected for locals and tourists alike. There is plenty other areas to log.
Revelstoke	Canada	I believe there has been a great shift regarding industry in Revelstoke and it's time policy be created to reflect it.
Revelstoke	Canada	I am a cross-country skier, biker, hiker, mushroom picker, back-country skier and rock climber. I moved to Revelstoke to be with the mountains and wilderness and more are following. Without the wilderness, I will no longer need to make Revelstoke home, as it will similar to the dump that I has left behind. Please stay unique Revelstoke!
Revelstoke	Canada	I mountain bike every summer on Mt McPherson and love the trails!

CITY	COUNTRY	COMMENT
Revelstoke	Canada	Revelstoke is a town nestled in forests that have long been used by industry and will continue to be an important aspect of the economy of the town for some time to come. However, a growing economy in recreation tourism, drawing people from around the world to explore and enjoy this place in all seasons, coupled with a strong community passionate about it's healthy, active lifestyle, must be equally strong considerations for the decision-makers and stake-holders involved in the plans to log the Mt. Macpherson recreation area that is already home to a fantastic, community-developed network of bike trails and a superb cross country ski area. We need to use a paradigm for decision making in situations like this that gives equal weight to economic, social, community, and recreation values.
Revelstoke	Canada	I along with many others use this are as a recreation area with many benefits to the community
Revelstoke	Canada	I use the Mt MacPherson recreational area almost every day year round and I would like to see it be protected.
Revelstoke	Canada	I love to ride
Revelstoke	Canada	Being a resident in Revelstoke this area is a key ingredient to our way of life and a lot of our enjoyment year round.
Revelstoke	Canada	Not logging in this area that is heavily used by recreationalists will have very, very little effect on the forest industry in the region, while logging the area would have a profound and long term effect on its recreational value. In light of the significant recreational value that has developed in recent years, the Mt. McPherson recreation area should be permanently protected from timber harvesting activities.
Revelstoke	Canada	I love riding the Mt macpherson trails for many different reasons - one of them being the trees!
Revelstoke	Canada	The value of having this area left unlogged for future recreation users is far beyond the value of lumber.
Revelstoke	Canada	Revelstoke has endless potential areas for logging but the local economy has become reliant on tourism. Let's protect our local adventure tourism infrastructure (trails) and ensure the future of the tourism cash flow to our community.
Revelstoke	Canada	I love these trails, don't ruin them.
Revelstoke	Canada	The hiking, biking and ski trails are a tremendous asset to our area. I know most of it would not be possible due to forestry putting money into the trail building as well as lots of volunteer hours. It would be nice to have a different area logged in exchange for the McPherson area.

CITY	COUNTRY	COMMENT
Revelstoke	Canada	I sign because I am concern of the well being of our land! This beautiful and respected recreational and touristic area attracts numbers of people to our touristic region every summer! Mushroom picking is practice by many of us every year! There is many more concerns I am sure! Macpherson is part of our lives and economy, don't destroy it again!
Revelstoke	Canada	I'm a big fan of biking on Macpherson & I want to see the trail network and with it the tourism industry in Revy continue to grow.
Revelstoke	Canada	I xcountry ski and bike here regularly and would love to have the area kept the way it is.
Revelstoke	Canada	love biking in the trees and the moss :)
Revelstoke	Canada	I run, ski and bike and mushroom pick in this area. Logging will destroy this beautiful place.
Revelstoke	Canada	because I feel that biking and cross country skiing bring the town revenue just as much as cutting down the magnificent trees whic line mount macpherson.
Revelstoke	Canada	Clear cuts are ugly, and decades of the same practice has only given logging a bad wrap especially when doing so to a mountain community that now relies on tourist dollars. Locals and tourists already see the HACK job that already scar our back country wilderness, perhaps give loggers an airplane ride over their back yards to see endless block cuts that go on for ever, and maybe then humans my consider select logging or find other environmentally was to cut down trees...
Revelstoke	Canada	The trail network has been scarred enough by the effects of logging and soon enough all Revelstoke will be known for is great trails in an unfortunate setting: a dry, dusty, hot, lifeless cutblock. There is absolutely no need to log the forests immediately surrounding Revelstoke It would have a negative impact on tourism and reflects VERY poorly on our town's priorities.
Revelstoke	Canada	love mtn biking
Revelstoke	Canada	Recreational tourism is drawing people from all over the world to Revelstoke. Clear-cutting the recreational trails would be a big mistake. There needs to be more discussion on this matter before trees are cut down.
Revelstoke	Canada	I enjoy recreating at Mt. Macpherson!
Revelstoke	Canada	I am concerned about damage to this recreational area that we have shared with family, friends & visitors & feel an opportunity to find a way to minimise impact to this land should be discussed first.
Revelstoke	Canada	I'm signing because I'm an avid user of the Mt McPherson recreation area
Revelstoke	Canada	I love this area and I believe there would be many other places to log before destroying this one!
Revelstoke	Canada	The trails are important to the local economy, the aesthetics of our city's view and the integral beauty of the riding and skiing that has been created at Mt. Macpherson.

CITY	COUNTRY	COMMENT
Revelstoke	Canada	My whole family uses this area extensively for Mountain Biking, Nordic Skiing and exercising our dog. We also support and attend all of the great events that happen there. Please don't log this important area.
Revelstoke	Canada	I love to bike
Revelstoke	Canada	I enjoy recreating in the area!!
Revelstoke	Canada	It is vital for the future of Revelstoke that logging, tourism and recreation are properly balanced. There are millions of acres to log but only one recreational area for biking and Nordic skiing in close proximity to Revelstoke. While it may also be prime timber close to the mill, there are other great logging locations only a few hundred yards away from these trails.
Revelstoke	Canada	I believe in the value of the multi-use trails that have been developed and maintained on Mount MacPherson.
Revelstoke	Canada	I enjoy using this area for skiing, walking, and biking. I think it is really important to find a balance between logging, recreation and the resulting tourism. There must be other less used and less pristine areas that can be logged instead.
Revelstoke	Canada	I love to ride trails in revi and drive out on a regular basis for both biking and skiing.
Revelstoke	Canada	The long term value of this space towards recreation, tourism, and quality of life is far more valuable than that short term value of felled timber and cleared forests.
Revelstoke	Canada	I live and play in revelstoke
Revelstoke	Canada	I am an avid mountain biker and would prefer to bike in the woods as opposed to clear cuts
Revelstoke	Canada	I live in the community of Revelstoke, i am avid mountain biker and cross county skiing. I want my children to be able to enjoy the beautiful forests we are so lucky to have. If this area is logged the regrowth won't happen in their lifetime!
Revelstoke	Canada	The trails are an important part of our community.
Revelstoke	Canada	Its unacceptable
Revelstoke	Canada	The future of Revelstoke is tourism
Revelstoke	Canada	I'm signing this because not only are the trails at Macpherson important to my family's year round recreation, but I recognize that it also draws many visitors to our community. Logging this area would change and even eliminate some of the trails and negatively affect peoples' enjoyment of this area. In turn, reducing the amount of tourism dollars entering our town.
Revelstoke	Canada	I feel it's important.

CITY	COUNTRY	COMMENT
Revelstoke	Canada	The over-arching land use plan developed 'with input from all stakeholders', was a snapshot in time. Times have changed. Tourism was not a priority, especially, for an area which had little to no pre-existing recreational infrastructure. Since 2008, Revelstoke has been designated as 1 of 14 Resort Municipalities in B.C. The RMI is a provincially funded initiative geared towards diversifying and growing tourism based economies. Clearly, tourism is a top priority for Revelstoke and B.C. Let's not destroy the infrastructure we have already established. The times have changed and so have the Stakeholders.
Revelstoke	Canada	there is plenty of timber available close to town that does not have to impact our amazing recreational area which also involved endless hours of labor and volunteer work over so many years. Please leave us this section of forest.
Revelstoke	Canada	The trails are beautiful and unique. Everyone love it, beginner or professional from everywhere in the world.... Destroy it is very stupid solution ...
Revelstoke	Canada	To protect, first and foremost, an important natural environment. Secondly, a community's background.
Revelstoke	Canada	I see the amount of use this area gets and believe the best use for this area is recreation
Revelstoke	Canada	It's worth keeping the trees standing in this area or atleast seeing if this is an option the government will entertain
Revelstoke	Canada	I feel that the tourism these areas bring to town will long out last the short financial gain of logging them. I enjoy these areas with my family daily, I would like to see them left as they are.
Revelstoke	Canada	Trails over 2 x 4's...
Revelstoke	Canada	I use these area recreationally and believe they are worth protecting.
Revelstoke	Canada	I use those trails often and I prefer to ride/run in a forest vs a clear cut
Revelstoke	Canada	I support the cause. Protect the environment!
Revelstoke	Canada	Planning is outdated and if the Province revisits this plan, I expect a better win-win solution could be found.
Revelstoke	Canada	I use the trail networks a lot in the summer and see the intrinsic rewards it brings many people. So much time and effort has gone in to making these trails and maintaining them. Let's try to find a solution or different zone to log and keep this fantastic playground accessible.
Revelstoke	Canada	I'm signing this petition because the idea to log this area is a short sighted land use plan for the area.
Revelstoke	Canada	I cross country ski and mountain bike at the Mount MacPherson trails. The recent clearing below the highway has ruined trails. Forestry is vital to the local economy, but so is tourism and recreation. Cut elsewhere!

CITY	COUNTRY	COMMENT
Revelstoke	Canada	This area provides countless hours of recreation in all seasons for Revelstoke citizens. As well, I believe that leaving the area unlogged will provide a far greater value economically and socially than logging the area.
Revelstoke	Canada	the bike/cross country ski trails bring tourism to Revelstoke, as well as fun for those who live here. Tourism is our future.
Revelstoke	Canada	The value of these trails in the short, medium and long term to both the economic and social health of Revelstoke far exceeds their short term logging value.
Revelstoke	Canada	I dont want to loose our recreation area
Revelstoke	Canada	I'm signing because the trees on Mt Macpherson are so important to our town - please gets some other trees or START A HEMP FARM!!!!!!!!!! Have you seen the benefits?? http://www.hemp-technologies.com/page33/page33.html
Revelstoke	Canada	I use the area a lot
Revelstoke	Canada	It is essential to do everything we can to maintain the unique tourist attractions around Revelstoke. Mount Macpherson attracts people from all over the world in summer and winter, not to mention the locals that regularly use the area. I personally would be shocked if I came to Revelstoke to experience the beauty of the Begbie Falls and Macpherson trails only to behold areas ravaged by logging. What does that say about the way forests are managed in BC? It just looks like we don't care.
Revelstoke	Canada	Mt Macpherson is an amazing place where locals and tourists can enjoy both summer and winter activities. I go there every day in the summer and utilize the dog loop in the winter . While I understand the importance of the logging industry, and understand that the trails will one day be rebuilt (hopefully for the better) this usually isn't the case. The newly rebuilt quarry trail on lower Macpherson is a good example of this. (Good attempt - but not the same as they once were) Mt.Macpherson provides so many things to the community, and to have terrain taken away and modified a little each time will only make for extremely busy spots, unhappy locals, and eventually less tourists. (Which we cannot afford in the summer) I really hope this can be re-looked at and a compromise can be reached.
Revelstoke	Canada	The benefit of these trails to the community greatly outweigh any benefits of logging. Lets find a solution.

CITY	COUNTRY	COMMENT
Revelstoke	Canada	I recreate out at Macpherson several times a week. I see the value of protecting that very small area from logging, not only for the sake of the locals but for Revelstoke's tourism. I feel that Revelstoke is gaining popularity as being a summer destination, and running cut blocks through this key recreational area of Revelstoke is not a smart move.
Revelstoke	Canada	The bike/ski trails on McPherson are very valuable to the Revelstoke economy and have become more important over the past few years. Co-ordination between timber harvesting activities and recreational development could better reflect this.
Revelstoke	Canada	Mt. MacPherson is an important cultural and environmental landscape that is way more important to Revelstokians than a clearcut.
Revelstoke	Canada	I love biking at mt McPherson. I spend almost everyday there in the summer biking. Not only that tnt is one of my favorite trails. I would hate to see something happen to it or any or the great trails.
Revelstoke	Canada	This is our backyard where we go everyday to enjoy the trees and take some fresh air doing activities. If you take the trees away, then the experience is entirely changed. We might as well just walk down the street. And its not about having some trees, its about having a mature forest. It is the mature forest that gives the experience. Why would we log our own back yard even if it did bring in big tax dollars. Its not worth the sacrifice. And if this is the last area to log before we get unemployed why would we log now and screw up the whole area just to get unemployed down the road. Why not leave it nice and get unemployed now and find something else to do while we still have a forest? We live in this town because we can recreate in trees. Or we would move to the city. Please don't log our Macpherson. It is our happy place. And now that we are a "Resort Municipality" people from all over the province and beyond come to enjoy our trees because they don't have any!
Revelstoke	Canada	Adventure tourism is the economic future of Revelstoke!a lot more resident and business will benefit from it!
Revelstoke	Canada	They are ruining our forests
Revelstoke	Canada	Macpherson is my back yard. I see how many people use these trails not only for biking but for cross country skiing. This recreation site that has been built through grants and volunteers and brings tourist to our area consequently boosting our economy. There must be other suitable areas that house valuable and available timber.
Revelstoke	Canada	I'm signing because I think this land should be used for public recreation and not logging.
Revelstoke	Canada	We've already lost too many of these beautiful areas close to town for short term gains.
Revelstoke	Canada	this plan is economically unsound, and contradicts Revelstoke's economic development strategy
Revelstoke	Canada	I am signing because I care about my backyard.

CITY	COUNTRY	COMMENT
Revelstoke	Canada	I am very concerned over the potential impact the proposed logging at Mt. Macpherson could have on all the recreational activities in the area.
Revelstoke	Canada	I enjoy skiing at Macpherson, great facility and trails.
Revelstoke	Canada	I quite enjoy the trail system at mount McPherson and believe it adds to Revelstokes tourism economy. It will be a big hit to the town to lose these trails.
Revelstoke	Canada	I use these trails often, and would be so sad if they were ruined.
Revelstoke	Canada	Friends enjoy the mountain, as do i! We don't need another mountain looking as ravaged as Boulder....
Revelstoke	Canada	These areas offer a sustainable economic and cultural investment in our community. Allowing them to be logged would be a shortsighted cash grab lacking any semblance of progressive thought.
Revelstoke	Canada	Mountain biking in Revelstoke is fun and beautiful with our beautiful forest, and is drawing in more and more visitors. Lets support the tourist economy and NOT cut down trees around Mt Mcpherson biking trails, please!!!!
Revelstoke	Canada	To log this area is a disservice to all That enjoy recreating in the area. I ask Stella Jones to take this loss for the people of Revelstoke as it will forever change the environment of the trails that we as a community truly enjoy. There is so much logging that can go on just outside the trail network. It's an unnecessary cut.
Revelstoke	Canada	TNT is an awesome trail !
Revelstoke	Canada	It's personal
Revelstoke	Canada	please, those trail are awesome and biking is very important for Revelstoke tourism development. thank you
Revelstoke	Canada	I value this recreational area. It is precious to me and my 4 kids.
Revelstoke	Canada	This land is an important recreation area for the community, and there are plenty of more trees on the backside of these mountains, where tourists will not see the cut blocks from the chairlift.
Revelstoke	Canada	Because it's beautiful!
Revelstoke	Canada	This is a beautiful recreation site enjoyed by many. So much blood, sweat, tears and money have gone into making Mt. Macpherson the Recreation area that it is today. Please preserve.
Revelstoke	Canada	These are established recreation trails that provide enjoyment & economic benefit to Revelstoke..
Revelstoke	Canada	I support the diversity and sustainability of our local economy.
Revelstoke	Canada	I use the bike trails, hiking trails and xc ski trails in this area, as well as others around Revelstoke
Revelstoke	Canada	I enjoy using the Macpherson area recreationally. I have seen the impact of logging on trail use short term and it is devastating. I would like to see the forest/trails in tact for my use and future generations.

CITY	COUNTRY	COMMENT
Revelstoke	Canada	I'm signing because I believe the government needs to address the outdated Land Use Agreement.
Revelstoke	Canada	It is a very important area and not worth ruining for such a small amount of money
Revelstoke	Canada	The country probably sells this beautiful forest to china for wood chips and then they sell it back to us. at Ikea. The forest is beautiful and i cant imagine how many animals loose there homes because of the action of one!
Revelstoke	Canada	Truly, if Revelstoke wants to promote itself as a year-round recreation destination, aesthetics need to matter. Continuing to allow new clear-cuts in a premier mountain biking area is shortsighted at best. The clean-up done in the most recent cuts quite obviously meets the very minimum standard. Trails quickly erode, not to mention just how ugly it is. The timber industry is important to the local Revelstoke and broader BC economy. However, there are many other places to cut trees that don't impact another economic driver--recreational tourism.
Revelstoke	Canada	i am signing because I am a cross country mountain biker who enjoys all of the trails on Mt MacPherson. It would be a shame to see the trails disappear so close to town. The quality of the trails and the close and easy access from town is unlike any other trails I have ridden. It provides a fun and activity in the mountains for all ages at all times of the year. People come from all over to use our trails not only for biking but for cross country skiing as well. And if the trails go, the people won't come. And that would be a shame. There are more trees in other areas. Why can't they log there?
Revelstoke	Canada	I use this space at the very least 3 days week, every season, and very much love and enjoy all the wonderful trails and space available for pleasure use!! PLEASE DO NOT LOG THIS!!!!!!!!!!
Revelstoke	Canada	who doesn't love biking?
Revelstoke	Canada	Many of my friends and I are avid users of the incredibly constructed cross country trails Mt. Macpherson has to offer. On these trails we have also been fortunate enough to witness some of the many amazing birds and animals that inhabit and make up the ecosystem of Mt. Macpherson. The importance of conserving this area for the wildlife alone is far greater than the benefits of logging in such a small but essential part of Revelstokes community.
Revelstoke	Canada	because I mountain bike
Revelstoke	Canada	The long term tourism and recreational value of the Mt. Macpherson Recreation Area is far more valuable than it's timber. The land use plan was developed 15 years ago and times have changed since then. It is time for change. Timber harvesting should not be allowed in this small, but vitally important area.
Revelstoke	Canada	i love revelstoke and biking!

CITY	COUNTRY	COMMENT
Revelstoke	Canada	Local access to these recreational areas promotes tourism, fit and healthy lifestyles, economic stimulation, team building and bonding (sense of community), and is too great a resource to let slip away. Also keeps youngsters out of trouble if they can go have some healthy fun when they haven't got access to a vehicle.
Revelstoke	Canada	Over the past year I've spent countless hours hiking, biking, camping and enjoying the beauty of the trails all throughout macpherson! I would be devastated to see it logged! For such a small town to have amazing access to the mountains so close to there homes is an amazing treat. There's so much other land available for logging why take away this gem so close to town?
Revelstoke	Canada	the trails are unique and its one of the popular spot for turists too, not just for locals! Please save it
Revelstoke	Canada	I am signing this petition because I use the Macpherson trials almost every day, winter and summer. This has become my backyard and feel so privileged to have a space like this so close for year around recreational activities. This space has created a haven for locals and tourists which has generated a community and industry in its own. Taking a piece of this is destroying something that has taken years to build.
Revelstoke	Canada	I would like to see this area protected.
Revelstoke	Canada	BC is big -- choose another area that doesn't destroy more of our natural, wonderful beauty and recreational beauty. Logging is important but don't destroy a world-class recreational area to leave an empty, devastated bulldozed recreation area that will take decades to beautify. The tourism industry continues to grow and we have to work together on this. Keep Macpherson beautiful and protect it from being destroyed.
Revelstoke	Canada	this is a highly valued recreational area. It is sheer greed to even consider logging a popular and beautiful area.
Revelstoke	Canada	This is the mountain of my childhood. Begbie falls area has already been destroyed due to logging, I can't let that happen to Macpherson as well.
Revelstoke	Canada	I live on the mountain, and I know how much my friends and family love the forest and activities that Mt McPherson holds.
Revelstoke	Canada	I believe it is important for the diversity of the environment near the town and it is helping to increase the outdoor recreation of the town as a whole which keeps us healthier
Revelstoke	Canada	The value of this area as a marketable recreational resource is far greater than the value of its lumber.
Revelstoke	Canada	The timber values versus the present and long term recreational /tourism values represented by this area need to be reviewed prior to the commencement of logging

CITY	COUNTRY	COMMENT
Revelstoke	Canada	I love the forest around Revelstoke and don't want to see the trails that I love become part of a massive cutblock.
Revelstoke	Canada	Mt MacPherson is the core recreation area for local resident. It is becoming more valuable as a tourist draw than the one time value of the harvested timber.
Revelstoke	Canada	Don't take this away from bc
Revelstoke	Canada	I feel strongly that it is time to consider the changing needs and desires of the population and the long term economic and health values of these key, critical recreation areas
Revelstoke	Canada	I agree with the statement out forward and feel that a there has been a great deal of financial and public effort put in to the area to build it up as a recreation area important to local tourism as well as quality of life for visitors and local people. The Nordic area has generated employment within the Nordic Club and runs programs for school groups.
Revelstoke	Canada	There needs to be a review of the need to harvest this area
Revelstoke	Canada	I really love skiing in this area, and it would be awful if it were logged. I love the big trees, there are so few big trees around the BC interior, even in a rainforest - go figure. I really want my daughter to grow up with some forests around not just tree lots. Add to this Revelstoke is very busy rebranding itself as a tourist destination, a place of natural beauty. Then when it comes to logging all these attractions, we are supposed to kow tow to the logging powers that be and put up no resistance - infuriating! Leave our trees along please, and go log something else.
Revelstoke	Canada	there has been enough logging in the area. It needs to stop before everything is gone
Revelstoke	Canada	I want to enjoy these trails and the beautiful scenery encompassing them.
Revelstoke	Canada	om a local and am against the logging of our amazing landscapes
Revelstoke	Canada	I like to ride bikes
Revelstoke	Canada	I'm signing because I love biking, skiing and touring on Mount Macpherson. It's an important part of the place we live in.
Revelstoke	Canada	The macpherson recreation area is a place to enjoy nature. Mountain biking, hiking and camping. Tearing down what took decades to create for a dollar is not acceptable. There must be another location you can cut down trees.
Revelstoke	Canada	Local community recreation areas should be managed and protected.
Revelstoke	Canada	I love and adore biking at MacPherson and think the land skills become recreationally proteced!
Revelstoke	Canada	Cmon!So many wonderful sights to be seen! And so many other areas that could potentially be logged, where thousands of dollars have not been already put in for tourism, and beautiful trails and other developments and such. .. seems like pretty simple logics to me. :)
Revelstoke	Canada	I enjoy playing in the woods.

CITY	COUNTRY	COMMENT
Revelstoke	Canada	I'm signing because I mountain bike and the Mt. McPherson area is a biking destination for me and I value very much going to Revelstoke and being able to bike those well maintained trails that people work very hard to upkeep. Please keep this alive.
Revelstoke	Canada	I'm signing because I do not agree that the economic gain from logging benefits the community. I'm concerned about the environmental degradation of logging close to t
Revelstoke	Canada	I'm a hiker, biker and x-country skier and I frequent the mt. Macpherson area
Revelstoke	Canada	It is beautiful rec area. Tourist attraction. Has been logged enough already. Don't want to spend my rec time in a clear cut. If I wanted a view I'll bike Key Stone and Frisby You can log somewhere else.
Revelstoke	Canada	I ride my bike up there a lot and enjoy the trails
Revelstoke	Canada	I like nature and this area is important
Revelstoke	Canada	These trails are an integral part of Revelstoke's tourism. The destruction of our unique forests and amazing recreation areas so close to town is absolutely unnecessary and disgraceful.
Revelstoke	Canada	I love riding my bike through the trees
Revelstoke	Canada	The Mt MacPherson area has important recreational, tourism and quality of life values as it is and should not be logged because this will destroy it. Areas like these need to be protected.
Revelstoke	Canada	I use these trails all the time and see how important they are to the spirit of the community and how many people come vacationing here to use the trails.
Revelstoke	Canada	The recreational activities at Mt MacPherson contribute to the overall well being of our community - in a very significant way. Many people are using those trails daily. Perhaps it would be worth while to commission someone to survey the use at MacPherson and then quantify the value before signing the area off to logging endeavours.
Revelstoke	Canada	This area needs to be preserved
Revelstoke	Canada	I ride these trails at least 3 days a week and would like that to continue! Many people from many places can be found enjoying these trails, it is a large part of the draw for summer tourism in our area.
Revelstoke	Canada	The winter and summer multi-use trails in the MacPherson recreational area are exceptional and unique within the old growth forests. Substantial work has been put in to make the best trail network of today. It would be a shame to see these facilities to be ruined by taking away the characteristic old forest. There must be a way to make all stakeholders work together and reach an agreement that works for all.
Revelstoke	Canada	there is no reason to log there go rape the forest a little further down the road
Revelstoke	Canada	Harvesting plans are vague and the area has values that are not being properly considered.

CITY	COUNTRY	COMMENT
Revelstoke	Canada	It is a shame to Cut down trees in that area, that is so impotent to the community and tourism in Revelstoke.
Revelstoke	Canada	recreational values are tourist values, and are as sustainable as logging. therefore they should be on equal footing as the need for harvesting
Revelstoke	Canada	I am using this area for my self and with friends on a regular base. I love the mountain biking and skate skiing in mature old growth trees and I would like it to keep it this way. Tourism is a big part of Revelstoke now as well as the Forest industrie. I hope we can figure some solution out which works for every stakeholder.
Revelstoke	Canada	I'm signing this because I use the trails on the mountain and I think logging of the area would wreck the expression for myself and many other residents and non-residents.
Revelstoke	Canada	revelstoke is my home away from home
Revelstoke	Canada	I use the hiking and bike trails around Revelstoke and I believe it's important to keep our trails and trees, instead of logging.
Revelstoke	Canada	why log the bike trails when there are so many other places to go. we are trying to grow tourism in this town and this will not help
Revelstoke	Canada	im not against logging in the MacPherson forest but I do think that other stakeholders should have some input into the management of the area
Revelstoke	Canada	On-going recreational and tourism value exceeds any one time timber value over the next 20 to 30 years.
Revelstoke	Canada	revelstoke is my home away from home
Revelstoke	Canada	im not against logging in the MacPherson forest but I do think that other stakeholders should have some input into the management of the area
Revelstoke	Canada	I use the hiking and bike trails around Revelstoke and I believe it's important to keep our trails and trees, instead of logging.
Revelstoke	Canada	On-going recreational and tourism value exceeds any one time timber value over the next 20 to 30 years.
Revelstoke	Canada	why log the bike trails when there are so many other places to go. we are trying to grow tourism in this town and this will not help

CITY	COUNTRY	COMMENT
Revelstoke	Canada	I do use these biking trails on Mc Pherson I do mountain biking on Mc Pherson. I invested time and efforts building trails.
Revelstoke	Canada	I ride McPherson trails.
Revelstoke	Canada	Not all trees and forests need to be harvested when they reach their "peak". This forest could thrive for another couple hundred years. How can we be so arrogant to think we know when a forest has past it's prime? The forest is worth a lot more than a few short term jobs.
Revelstoke	Canada	I like the forest.
Revelstoke	Canada	I beliwve this area is more valuable as a recreational asset than for logging.
Revelstoke	Canada	We deserve to have these beautiful familiar places protected. They are gorgeous and lush trails that don't exist anywhere else. The mountains and trails around here are famous.
Revelstoke	Canada	Im signing this because I love nature, biking, hiking, skiing and everything about the great outdoors. Plant hemp. Leave the trees alone.
Revelstoke	Canada	I was fortunate to be one of many volunteers making this area our 4 season playground. Not only do many Revelstokians enjoy this outstanding recreation area it also continues to bring economic benefits to our community in so many ways. We all want to enjoy and continue to provide healthy outdoor activities for our family, friends and Revelstoke visitors.
Revelstoke	Canada	The timber harvesters are compromising an incredibly beautiful mountain culture asset. Just move over a bit and allow people to enjoy the forest in its natural splendour.
Revelstoke	Canada	Don't you think having world class trails in a mature forest are a draw to recreationists and tourists alike? We have only just begun, so leave the area alone and move along the mountain a bit. Thanks
Revelstoke	Canada	Volunteers spent too much time and work and there is so many other places to log...
Revelstoke	Canada	I love running and biking in the forest
Revelstoke	Canada	This is a very small area with a very big impact on the lives of Revelstoke citizens. The land use plan for this area is out-dated due to all the changes in the town over the last fifteen years and therefore should be re-examined.
Revelstoke	Canada	i am a user of the area
Revelstoke	Canada	Revelstoke's incredible recreation and tourism assets are at great risk.
Revelstoke	Canada	I believe a local industry shouldn't harm another one.

CITY	COUNTRY	COMMENT
Revelstoke	Canada	I strongly believe that outdoor recreation areas around Revelstoke should be protected from resource harvesting/extraction. More and more people are getting outside and using these areas which makes it more difficult for people to "get away from it all".
Revelstoke	Canada	The time, effort and passion of mountain bikers in this area far outweigh the wants (nothing but money) of logging companies. It is time to stand up and protect these areas for caring users enjoying our natural environment.
Revelstoke	Canada	I'm signing because I believe the biking and hiking trails need to be protected
Rossland	Canada	I am a regular visitor for the purpose of mountain biking. The economic and social benefit are not adequately understood. Please, no more logging on Macpherson!
Rossland	Canada	recreation is important to people for their mental and physical health and also brings \$\$ into the local economy - who wants to visit a place where the logging has wrecked all their trails!
Rossland	Canada	I enjoy mtb tourism in Revelstoke!
Saint-Hubert	Canada	i like nature, bike and those trails. They are plenty of other space to go!
Saint-Lambert	Canada	Mount MacPherson should be used for recreational purposes as far as I am concerned.
Saint-Paul	Canada	I was lucky to have taken advantage of these wonderful trails. And I expect to come back sometime. I hope they will still be there.
Salmon Arm	Canada	to protect the something for our children.
Salmon Arm	Canada	I have no issues with logging but I firmly believe that the current mountain bike infrastructure in Revelstoke needs to be protected because it brings tourism and revenue to the community. Forests close to communities should be community owned and operated forests. Community co-op's
Salmon Arm	Canada	Preserve it! Promote healthy lifestyles! Get people outside! Instead of thinking about the short term economic gain in logging Mt. Macpherson please consider the long term effects the preservation of such an amazing asset will have on our society. Lets encourage exercise and connection with nature while reducing depression, cardiovascular disease and diabetes. I'm okay with losing out on a little GDP for the more long term gain of greatly reducing healthcare costs and having a happier and healthier society.
Salmon Arm	Canada	It should be a park
Salmon Arm	Canada	We have to all stand up for what is correct and help protect the environment before it's gone.
Saskatoon	Canada	I mountain bike there.
Saskatoon	Canada	Im sick of seeing our beautiful control sold off by the conservative government.

CITY	COUNTRY	COMMENT
Saskatoon	Canada	I've enjoyed and hope to
Shawinigan	Canada	respect the forest and activities
Sherbrooke	Canada	I love this area!
Sherbrooke	Canada	I already rode there, and that's completely awesome. So I wanna save that place!
Sherbrooke	Canada	recreational
Sixth	Canada	Logging land near Revelstoke with existing recreational values and intensive use by the public is simply the wrong way to proceed. At least if logging must be done close to Revelstoke it should be done where there are no current trails or other regular use by the public and should also not negatively effect the scenic views. There are already many cutblocks in plain view of town. Further logging development in this vein will definitely affect tourism values.
Sooke	Canada	I believe in the petition, to put it nicely.
Sorrento	Canada	i believe the area should be left in its natural setting so that it can be enjoyed...go find trees somewhere else!
Spruce Grove	Canada	because I visit that area a few times a year and I would hate to not be able to share it with my children as they get older
Squamish	Canada	I have been to Revelstoke many times and went hiking in the Mt Macpherson area. It is an asset to Revelstoke to have these trails and quite close to town. Shame to see these assets and efforts wasted for a few bucks for a few businesses.
Squamish	Canada	It's important.
Squamish	Canada	I have been recreating in Revelstoke since the late 90's. I have watched the growth of the adventure tourism sector. I have enjoyed and benefitted from the awesome natural surrounding of the town. I ski, mountain bike, paraglide, climb, and stay multiple times in Revelstoke every year. Please help your local lands remain a desirable place to enjoy. Diversity of trail and many opportunities to explore are they key determinants when deciding where I spend my recreation time.
Squamish	Canada	I bike and run there!
Squamish	Canada	I'm signing because I ride these trails whenever I come to visit.
Summerland	Canada	There is a way to extract logs and leave a visual corridor for the world to enjoy. It just takes planning and the will, do what is right.
Summerland	Canada	I am signing because we have this same problem at Apex Mtn Resort. Not against logging but deserve some consideration from the ministry and forestry companies. Recreational areas bring in BIG bucks and its time that fact was recognized.
Summerland	Canada	I recreate here and want to continue to do so.

CITY	COUNTRY	COMMENT
Sundre	Canada	I love cross country skiing on Mt Pacpherson, as a visitor to the Revelstoke area. The nature is the good part.
Surrey	Canada	Logging, no matter where, should not be allowed to destroy the areas used by recreationalists. Save our trails.
Surrey	Canada	Mt MacPherson is an amazing experience for a mountain biker. It is heartbreaking to think all those beautiful trees and trails would be wasted so close to a wonderful town that depends on tourism more and more. There has to be a better way to sustain all interests!
Sutton	Canada	Close to town and used year round by residents and visitors we need to protect this recreation haven
Sydney	Canada	i visit Revelstoke to ride those trails!!!
Terrace	Canada	This area has significant importance as a recreation site for many in the community of Revelstoke as well for those of us that enjoy visiting. Would be a shame to lose this and have to go elsewhere to spend our time and \$\$\$.
Thunder Bay	Canada	This is a beautiful trail. A tragedy to loose!
Timaru	Canada	This trail network is invaluable, nurture it and tourism will flourish
Tiny	Canada	Outdoor recreation areas must be preserved for the health and happiness of humans and the more-than-human world.
Toronto	Canada	nature is the boss
Toronto	Canada	I am a cyclist. Recreation on Mt. Macpherson is more important than ignoring the need for sustainable logging.
Toronto	Canada	When I return to Revelstoke, I'd prefer it to be worth returning to.
Tsawwassen	Canada	Logging and recreation areas are incompatible. Trees are an essential part of recreation in wooded places; a wasteland is a desecration - a very different concept.
Vancouver	Canada	Cut this forest down and you'll benefit a few people economically for a very short period of time. Leave it standing and you benefit the community economically and spiritually for generations.
Vancouver	Canada	I want to Mountain bike these trails and bring people to the area to ride
Vancouver	Canada	we love visiting revelstoke and using these trails for recreation !
Vancouver	Canada	Love mountain biking! Dont destroy the trails!!
Vancouver	Canada	This forest means a lot to me. It is a great area to escape to and is a well used area that would devastate a lot of people if logged.
Vancouver	Canada	Logging is a short-sighted and unsustainable way to profit from the forest.

CITY	COUNTRY	COMMENT
Vancouver	Canada	I want to save the mountain biking trail network. It is well built and well maintained. This area was one of main draws for visiting Revelstoke. Others places have logged with consideration of maintaining the trails.
Vancouver	Canada	i love these trails...they can log anywhere else really
Vancouver	Canada	Revelstoke is on my list of BC towns to visit for mountain biking. I prefer to holiday in my province / country, and if a recreational area is clearcut, I would pick another town to base out of.
Vancouver	Canada	i love riding the trails in revelstoke
Vancouver	Canada	I really enjoy mountain biking there when I'm visiting Revelstoke.
Vancouver	Canada	I care!!
Vernon	Canada	I love mountain biking the trails and I tell everyone how awesome they are. If they get logged I probably will tell everyone they suck.
Vernon	Canada	I enjoy the trails at McPherson and would like to see the network expand and not be logged out like so many great recreational areas and park lands
Vernon	Canada	McPherson is awesome as is.....selective logging is ok but not clearing the whole place out.
Vernon	Canada	These trails are amazing, don't log this area!
Vernon	Canada	I care about the environment and trees are important wildlife, and destroying forest is not ok.
Vernon	Canada	There's millions of other trees to harvest in the province that do not affect recreation areas
Vernon	Canada	I am an avid mountain biker and nature enthusiast. I have been to the Keystone basin trail but was hoping to visit the other many trails in Revelstoke. Mtn. Bike tourism is on the rise. Keeping this area open will allow tourism to flourish in Revelstoke and bring in economic gains.
Vernon	Canada	the taking of lumber out of this area for short term gain is short sighted and there should be protection for recreational value...I'm from out of town so why would I come to ski or ride in a clear cut...I wouldn't...councils need to think longer term and broader than the current scope...
Vernon	Canada	I spend several weekends a year as a "tourist" in Revelstoke, enjoying the local restaurants and biking Frisby, Keystone and Macpherson. The Macpherson trails are an important draw for tourists and gems that are worth saving.
Vernon	Canada	I enjoy using these woods, please do not further log.
Victoria	Canada	I thoroughly agree with this article and the comments posted thus far - I could not say it better.
Victoria	Canada	im signing because I love to recreate on mount Mac
Victoria	Canada	The message from BC government seems skewed. They want the citizens of BC to live healthier lifestyles so we create outdoor recreational areas only to have the same government sell, without proper planning or consultation, those areas to forestry companies. There is a better and fairer solution and the BC government needs to bring all parties to the table to develop that solution.

CITY	COUNTRY	COMMENT
Victoria	Canada	I visit McPherson whenever I visit Revelstoke and in a logged condition I would not be interested in doing so.
Victoria	Canada	My friend lives in this area and has a real connection to Mt Macpherson!
Victoria	Canada	I myself have seen many places in the world that do not have this luxurious greenery and I want to try and preserve something that we have that is really precious.
Victoria	Canada	small area should be preserved
Victoria	Canada	Pristine, beautiful mountain bike trails are rare, and help with both recreation and tourism.
Victoria	Canada	I CARE!
Victoria	Canada	Forests equal fish, clean water, clean air, wildlife and beauty.
Victoria	Canada	I am tired of seeing the raw beauty of Canada being destroyed by greedy hearts!
Victoria	Canada	Diversity and sustainability are crucial! They are musts if we are to have a successful and positive future economy. Do the right thing!
Victoria	Canada	I care.
Victoria	Canada	I am signing because I love biking on these trails
West Kelowna	Canada	I love dirt
West Kelowna	Canada	Mountain biking is the main reason I make the trip (roughly once a year) to Revelstoke from the Okanagan.
West Kelowna	Canada	It is a great place to experience nature and have fun with people riding bikes or hiking.
West Vancouver	Canada	i believe in the importance of recreational trails in close proximity to the town of Revelstoke and their value to tourism.
Whistler	Canada	Natural resources and economics can find a better balance. Tourism won't play a role after nature is tampered with.
Whistler	Canada	My community is facing similar challenges and together, we can bring "reason" to responsible resource extraction. Tourism and industry can co-habitate, but the will of citizens and residents means more than the \$ exported
Whistler	Canada	I am signing this petition because I have been to the Macpherson bike trails and cross country ski areas multiple times! One of the main reasons I went to Revelstoke was to partake in the amazing mountain biking in the area.
Whistler	Canada	i am a mountain bike enthusiast that would hate to see the forest destroyed
Whistler	Canada	the zone is way too close to the town to be logged, plus the network of bike trails is unbelievable.
Whistler	Canada	I love biking
Whistler	Canada	I will not live long enough to get the natural forest back in that area if it is used for logging

CITY	COUNTRY	COMMENT
Whistler	Canada	The Macpherson trails are fantastic local amenity that should not be ruined for logging that could easily be achieved elsewhere.
Whistler	Canada	One of the best and easiest access mountain biking in Canada, so for a town that the future so obviously will depend on tourism it would be completely crazy to log one of its greatest assets
Whitehorse	Canada	I love trees, and I think recreation is important in wooded spaces for generations to come
Whitemouth	Canada	My husband and I drive from Manitoba to Revelstoke to mtn bike every summer because we have found the best trails around Revelstoke. The BIG trees is what draws us to this region, with it's lush forest and vegetation. Being able to bike in a rain forest area is awesome!!!
Williams Lake	Canada	I am a biker. I am a treeplanter and i have seen the revelstoke trees they cut... They dont come back like that untill 500 years later...
Winfield	Canada	My friends and I make the the trip to Revelstoke about 3 times a summer to bike these trails. Spending money on food, parts, hotels/camp and gas. The trails are the draw for us.
Calgary	Canada	Im mountain biker. Macpherson area is one of my favorite area in canada!!! i want to ride forever!!! and i really wanna show this area to Japanese riders!!!
Brno	Czech Republic	I like this planet and I want maybe to visit this playce in future. So hope it will still exist for my bike :)
Byskovice	Czech Republic	LEAVE THE TREES ALONE!!!!
Niv	Denmark	I visited the area on my travels and loved it! Use it wisely
	Germany	I think that the negative impact of commercial logging is underestimated.
Dublin	Ireland	I was born in Revelstoke and grew up riding these trails.. This area is an invaluable asset to everybody in the community, the amount of people I see on a regular basis out there is amazing. From summer to winter all ages from 5 years old to 80 years old are out there recreating and loving it! I sincerely hope that we can work out a compromise to keep this are for the community of revelstoke!
Christchurch	New Zealand	I am from Vernon, BC and have enjoyed these trails. I completely understand that forestry is a vital part of BC's economy. Local timber is also more efficient to harvest. I worked in the Mica area for a few years and there are an abundance of trees between there and Revelstoke! However the positive impact of encouraging healthy outdoor lifestyles can't be ignored. Revelstoke wouldn't be the gem that it is without these trails!
Dunedin	New Zealand	I love tree's
Titirangi	New Zealand	I am a mountain biker. We need to keep these places sacred !! The Forrest's are our churches
Wanaka	New Zealand	I was lucky enough to call Revelstoke home for 18 months, and ever since I left I've dreamed of returning. Don't ruin my dream!

CITY	COUNTRY	COMMENT
Wanaka	New Zealand	I would love to come and ski and bike in Mature forest close to Revelstoke.
Wanaka	New Zealand	I can't wait to come back and ride these trails!!
Whangarei	New Zealand	I believe that this part of the forest has far more long-term value to the community as a network of trails
Whitianga	New Zealand	Primarily because I'm a mountain biker. I lived in The Kootenays for 12 years and love the Revelstoke trails, as well as the whole outdoor scene there. Consider how much money that identity brings to Revelstoke. I'm not opposed to logging at all, but please consider the wider implications of losing trails, which will affect the international reputation and image of Revelstoke.
Basel	Switzerland	I was born and raised in the Kootenays (and regularly return). Logging has decimated many parts of the landscape in my lifetime. Think long-term, think big. Preserve the forest, our way of life, and help turn down the heat of climate change. This is what our Crown Land is for -- the common good.
Blandford Forum	United Kingdom	One of the main reasons for visiting Revelstoke is for its outstanding natural beauty but also for the wonderful people who live there. This vibrant resource is worth protecting for the long term.
Camberley	United Kingdom	I visited this beautiful place with my Canadian family, stayed in Revelstoke, just the most stunning views from the mountain lodge. Please don't spoil this area of such natural beauty for future generations .
Daventry	United Kingdom	Cause I visit the site regularly and its a fantastic day out
Watford	United Kingdom	Recreation is paramount to mental and physical health. As a sport and a family activity, mountain biking is becoming ever popular and these trails are an important part of fitness and culture for local riders.
Bellingham	United States	I am an avid mtn biker and skier who has visited Revvy several times for both activities and as a Canadian, my husband and I have been considering Revelstoke as a community to relocate to since there seems to be such a great focus on the outdoors in the town. I currently live in a place where the effects of a working forest have disrupted and nearly decimated an amazing network of local trails. I would hate to see this in Revelstoke. I hope the City and local MLA's can work to find a solution that benefits every stakeholder in the community.
Bellingham	United States	I love this area of wilderness!
Bellingham	United States	I love to mountain bike
Brooklyn	United States	Because I believe that the eco tourism and mountain biking can grow the local economy
Charlottesville	United States	I'm signing because I am 76 years of age and have enjoyed hiking in this area during my visits from Virginia for the last 18 years. I would cry to see it all disappear. Yes, there is lots of woods out there, but this particular area, so close to town, enhances the interest of visitors. Please don't think of us as "tourists" who pass through only once.

CITY	COUNTRY	COMMENT
Cool	United States	Every year we take a weeklong MTB vacation to Revelstoke because the trails are amazing...and every year we return there are more. It's going to be great for the town and area to protect and promote riding. We come all the way from California. Don't ruin it with logging!
Edmonds	United States	I am a frequent visitor to Revelstoke and this is an important placed to save so we can enjoy nature's beauty and outdoor recreation.
Ferndale	United States	These trees& trails are so much more valuable in the long term for this wonderful community.
Islamorada	United States	This place is too cool to destroy it.
Leavenworth	United States	seems like a bad a idea!!
Miami	United States	I own land in Revelstoke and plan to build a home there. I want the beauty of the mountain protected.
Milwaukee	United States	i love snowmobiling here
Seattle	United States	I love mountain biking and would love to ride these trails as a visitor. I
Seattle	United States	I live in Nelson, but I come to Revelstoke at least once a summer to ride my mountain bike in the area, usually meeting friends who have come out from Calgary, Vancouver and Whistler. We always spend a day at the MacPherson trails, and hope they continue to be an enjoyable place to ride and safely recreate.
Toronto	United States	I don't want to see our mountain playgrounds destroyed.
Tyler	United States	I believe these areas preservation are more important than commerical interests.
Hanoi	Viet Nam	I recreate in this area all year round, I hope an exception can be made for this area!
