When we decided to go to Jordan my cousin of mine with his bus offered me his help, and that to drive me to the countryside of Homs, we arrived there and from there we went to ele'llaniyah -small town in Homs-, we stayed there for a month. After this month me and my family took a sheep carrier truck to go to Jordan through Ruwaished Jordanian border, staying in the back of the truck with many other families, and after 180 km drive, we failed to enter Jordan 2 times, but the third had been met with success.
