The **ORANGE TRAILS** & **GREY ROADS** show the inventory of trails & roads prior to the start of the **TRAILS STRATEGY**. The **PURPLE TRAILS** show the trails that were added to the inventory by compiling GPX files and manually tracing map layers from the Strava Heatmap Data. Prior to the **TRAILS STRATEGY**, the inventory of trails was 150km. Through the Trails Strategy 422.7km of trails were added to the inventory. **A 282% INCREASE.**

*Roads and trails were not differentiated by Strava. These were categorized manually by SPK.
